SUMMARY INFORMATION
ABOUT NEW CONTRIBUTIONS OF THE THESIS

Author's name: Nong Anh Nga

Thesis title: Family culture of Tay people in Cao Bang Province

Major: Culturology Code: 62310604

Supervisor(s):

1,

Prof. Dr. Hoang Nam

2, Assoc. Prof. Dr. Nguyen Thi Viet Huong

Training institution: Hanoi University of Culture

Through research, the thesis has made the following contributions:

- The thesis is an in-depth study of the Tay family culture in Cao Bang Province from a cultural perspective which is of interest to many scientists. It provides a general overview of the Tay family culture, contributing to the systematization of resources to facilitate those who study the Tay people later on.

- The thesis incorporates more field data and provides a relatively detailed description of the Tay family culture in typical research areas in Cao Bang Province in the tradition and current transformations.

- From the research results, the author has also presented the forecast of changes in family culture of the Tay people in Cao Bang Province. Simultaneously, the thesis also addresses some issues in order to preserve and promote values in the family culture of the Tay people in Cao Bang Province, making it more practical for community life.

- The thesis will be a reference source for lecturers, PhD. students and students of culturology, ethnography, anthropology and scientists who are interested in the field of family culture of Tay people in general and Tay people in Cao Bang Province in particular.
